About Velisha
London

Why Choose Velisha

Our philosophy is about holistic and wellbeing, working from the inside out to create natural beauty and inner calm. We are committed to using high quality products, vegan friendly and natural ingredients.

Velisha has been created to be professional spa product, which is purely luxurious affordable skin care range, driven by vision for uncompromising luxury, to offer a stunning range of natural Beauty, Bath and Body Products, as well as home fragrances and body fragrances.

We Believe in maintaining the circle of well-being, so you can trust that all our products will always live up to our high standards of sustainability, whilst being effective, safe to use and 100% natural.

WE BELIEVE THAT HEALTHY SKIN IS BEAUTIFUL SKIN

Our products use only natural ingredients that work alongside your skin's natural processes to reveal beautiful, radiant, healthy gorgeous skin.

KINDNESS IS AT THE HEART OF EVERYTHING WE DO

Our products are creatively conceived here in the U.K. We use only purest, highest quality, cruelty-free ingredients at their optimum levels ensuring, we care for your skin as well as for the planet. All our products are not tested on animals.

✓ Natural Ingredients

We only use natural ingredients within our brand to offer luxurious skincare without costing the planet

✓ Animal Friendly

None of our products are tested on animals

✓ Vegan where possible

A number of our products are vegan friendly

Our Team

Wellbeing and Beauty without Compromise

Our Dedicated team are inspired with the wonderful nutritious indigenous ingredients and the love of living life to the full. This is what excited us and what drives us today. We have so much passion for our products, skin care and wellbeing.

We source every ingredient, partnering with suppliers & manufacturers who share out own sustainable, responsible and ethical standards

From our phenomenal skincare to the exceptional wellbeing experiences of Velisha London Facials, Body treatments and massage, from our drive to empower women to run their own skincare business by hosting at home skin care classes, to working in our amazing head office, one thing binds it all together; we love what we do. Welcome on out journey, welcome to our world.

Our Product Values

Ingredients

Luxurious and simply Gorgeous

We think texture is really important, it is what makes Velisha London's products really different, smoothing something on your skin that feels amazing makes you smile and that's is great for your wellbeing and your soul health. Our Products have a skin feel that's addictive and we believe skincare should be pleasure to use not an uncomfortable chore.

Results

Our Choice of ingredients is driven by performance, results on skin and overall benefit but equally for their low or zero environmental impact. We use the highest level of naturally derived ingredients and botanicals from responsible and sustainable sources.

Animal Testing

We believe strongly that the practice of testing skincare products and ingredients on animals is unacceptable. We never test or have tested any of our ingredients or finished formulas on animals, nor do we hire others to do so on our behalf. Our Velisha skincare products are made in accordance with the animal testing regulations as set out in article 18 of the European Regulations (CE) 1223/2009.

Some of our products do contain animal derived ingredients, such as lanolin and beeswax. We chose to use these because of their time-tested skincare benefits, we love to be open and honest and we are not ashamed to admit it.

Vegan

Most of Velisha products are vegan.

The choice of vegan diet and lifestyle will not stop you enjoying our products. We are pleased to say that the majority of our products are completely confirmed as vegan cruelty free skincare products.

Vegan Choices

We appreciate how important a vegan life choice is for some and so each of our product pages confirm if the formula is vegan just look out for the little icon. And if your unsure please get in contact with us and well be delighted to send you a confirmed summary.

Gluten Free

Vitamin E

Some of our products do contain gluten and traces of gluten.

We use many different vitamins in our skincare, Vitamin E being a main staple of our industry is naturally derived from Wheatgerm so contains gluten. Its oil soluble and highly antioxidant, a great hydrating and moisturising source and very easily absorbed by the skin. Perfect for locking in moisture and keeping out skin's protective barrier healthy, our connective tissue strong and our skins surface and that is why we love it.

Bring Nutritious Goodness to the skin

We also use oats, corn starch, soybean, and malt extract all which bring a nutritious source of skincare goodness to the skin too, but all contain gluten or traces of gluten. We know and appreciate these inclusions are no good if you have a gluten

intolerance and so to help select suitable products with confidence look out for our icon on each product.

Nuts

A few of our products do contain nuts. We use Sweet Almond Oil, and these occur in some of our products. we do not use peanut or peanut oil in any of our products.

Some People who are allergic to tree nuts (like almonds, cashews, and walnuts) are also allergic to coconut. Some of our products do contain coconut.

Only Products which contain nuts are listed contain them, but we are not a nut free factory so cross contamination can occur.

Fragrance

Each Velisha London Product has its own fragrance that has been exclusively crafted to enhance a smile inducing feel good experience.

All skincare products must have an ingredient list sometimes referred to as an INCI list (The International Nomenclature of Cosmetic Ingredients). You will find these on our cartons and on each product.

Some Velisha London Products ingredients list the word 'Parfum'. We have to use this word as it is the law of our industry but to most of us its perfume, fragrance, aroma and what it smells like. "parfum" may contain up to 0.01% non-natural ingredients.

Please note that some of the 100% natural products may contain a very small percentage (less than 0.1%) of the safest non-natural preservative currently available. Unfortunately, there are not truly effective natural preservatives available for every type of formulation so study the ingredients.

Many of our products contain 100% natural fragrance,

But.... Sometimes if a product does not list 'parfum' in the ingredients list it doesn't mean that it does not have a fragrance or smell good. In the instances, the aroma is coming from pure essential oils included in the formula.

Paraben

We chose to use other preservatives systems due to consumer preference and not because we deem it unsafe in any way to use paraben. We would like to add however, that paraben as a preservative remains the most widely used stabiliser in the cosmetics, pharmaceutical and food industries. The use of paraben as a cosmetic stabiliser has been approved as safe by expert panels and by global legislative bodies whose role it is to ensure the complete microbiological safety of our products.

Natural or Chemical?

Its too easy to try and classify ingredients as toxic or chemical or indeed natural. All materials in the known universe are 'chemical'.

For example, water is a chemical – H₂O. Whether a material is toxic or not depends on what level you use or consume it at. For example, nutmeg is a great spice for flavouring food and its safe to eat, it you consume large amounts of it, it is known to be toxic.

Whether a material is natural or synthetic depends on how its processed. We have a high level of natural ingredients within our formulations. Our products combine a whole host of derived extracts, pure essential oils, science-led and cutting-edge active complexes.

Amazing texture scent and experience

In order to achieve the best results from all of our skincare products we don't limit our choice to natural ingredients only, you will find a combination of both naturally derived and sourced ingredients combined with some carefully chosen synthetic ingredients, all have vital reasons for their inclusion within our formulations to deliver great texture, results and experience for you.

Assessed & Approved

All of our products are assessed and approved for their topical skin safety by independent skin care experts and toxicologists before they go on sale, this includes looking in detail at the usage levels of the ingredients chosen. Skincare products need to be stable and safe to use and this often means using materials that are not classified as natural. But this does not mean they are not safe to use.

Day Creams

The skin should be protected during the day against the ravages of sun, wind, cold and air pollution.

Day creams protect the skin and, at the same time nourish and replace moisture loss. Velisha day creams are quickly absorbed leaving the skin ready for make-up if required.

Night Creams

It is important to care for the skin at night. When you are resting, the skin can be encouraged to repair itself by using creams that aids its normal regeneration.

Daily Ritual

Tan Time

200ml

Glow | Perfect Tan | Natural

Description

Easy to apply mousse that delivers a gorgeous, instant golden colour. Colour control! Choose lighter or darker shades by simply adding layers. Quick drying and non-sticky – dress and go. Minimised self-tan smell. Lasts up to 7 days with even fades. Suitable for face body and all skin tones. 100% natural active tanning ingredients (DHA) approved by Ecocert and completely paraben free.

Please note some of these ingredients have a coconut base.

Key Ingredients and Benefits	Aloe Vera Soothing Healing Moisturising helps treat Hyperpigmentation fights skin ageing reduces infection and acne Cooling Properties lightens blemishes on the face. Aqua Is an all-round skin ingredient that intensively moisturizes and makes it possible for moisture to be stored long-term soften ruff dry skin Dryness line and wrinkles are noticeably diminished Complexion appear fresher and plumper. Citric Acid Helps even out skin tone helps unclog pores exfoliates to remove dead skin cells and helps promotes exfoliation helps brighten the skin, soften and smooth the skin. Targets the skins hydration support the matrix to reduce the appearance of fine lines and wrinkles. Glycerin Allows skin to retain moisture increases skin hydration relieved dryness and refreshes the skin surface acts as an emollient which means it can soften the skin.
Direction	For best results waxing or shaving should be completed 24 hours prior to applying. Exfoliating thoroughly to even out the skin before application. Apply to clean, dry skin. Do not apply moisturiser before application. Apply in circular motions (use of mitt optional). Start applying a small amount adding more colour to the skin in layers to give a darker colour if desired. Blend evenly onto the face and body. After application, use a small amount of moisturiser rubbing into areas of dry skin such as elbows, hands, knees, and heels to prevent build-up of tan. Allow to dry for 5 minutes before dressing. Avoid bathing for up to 7 hours. Moisturise after bathing or showering to prolong your tan and keep skin silky smooth.

The Spa Ritual

Deep Sleep Lavender Therapy Oil

30ml

Restful | Nourish | Calming

Description

This Gorgeous Deep Sleep oil contains lavender and is encourages a restful night's sleep. High in antioxidants and key actives such as lavender, this serum can be applied before moisturiser, helping to fight fine lines and wrinkles. Enriched with natural ingredients, this oil helps unwind and calms the skin, leaving you with therapeutic and relaxing results for the body and mind.

Key Ingredients and Benefits

Lavender
Calming | Promotes Wellbeing | Reduces Stress | ability to lessen acne | Helps Lighten skin | reduce wrinkles.

Sweet Almond Oil
Improves complexion and tone | Reduces puffiness and undereye circles | reverse sun damage | treats dry skin | helps Hyperpigmentation | Nourishes.

Grapeseed Oil
Skin Moisturising | Softness | Helps the Vitamin E and Vitamin c in your skin to be more efficient and effective at preserving the skin.

Direction

For initial use, twist dropper and open. This lightweight, non-greasy serum can be used daily in a number of different ways:

Apply a few drops directly onto the skin, face and body, massage in well to deeply condition and hydrate. Follow with a moisturiser. Apply a drop to each pulse point and gently massage in before bed-time- the lavender oil will help induce sleep.

Apply 2-3 drops to your hair and scalp, great for soothing itchiness and flakiness.

Apply a drop to your nails and cuticles, massaging in well to help stimulate growth, nourish, and protect.

Section 7

Ingredient Glossary

Breakdown of Ingredients from A-Z and their benefits.

Aloe Vera (Aloe Baryandensis Leaf Extract)**Cruelty Free, Safe for pregnancy, Vegan,**

Aloe Vera gel is renowned for its skin soothing properties and is widely used to help calm common skin problems such as acne, psoriasis, dry skin, sunburn, and insect bites. The gel can be found inside the plant's leaf, and is packed with 75 nutrients including vitamins, minerals, amino acids, enzymes, and Essential Fatty Acids. Aloe Vera gel is good for the skin, because it acts as an anti-inflammatory and has excellent hydrating, anti-bacterial and restorative properties. It also helps to repair the skin by stimulating cell production and supporting collagen. It contains a substance called lignin, which penetrates the skin's layers and carries nutrients to the deeper layers where the skin cells are renewed. It's also a source of salicylic acid, which helps to clear away dead skin cells, and anthraquinones, which help to reduce the formation of hyperpigmentation including age spots.

Aqua (water)**Vegan, Safe for Pregnancy, Cruelty Free.**

Means water. Is in a majority of skin care product. One of the most important ingredients to keep you hydrated. Its is an all-round skin care series that intensively moisturises and makes it possible for moisture to be stored long-term. Dryness lines and wrinkles are noticeably diminished. The complexion appears fresher and plumper.

Apricot Kernel oil (Prunus Armeniaca)**Vegan and Cruelty Free, Nut free, Safe for Pregnancy.**

A nourishing oil that is rich in carotene. Contains a high level of Vitamin E and A which are great for promoting healing and prevent skin damage from free radicals because of their antioxidants and anti-inflammatory properties. Apricot Kernel oil is made from the dried seeds. This is perfect for even the sensitive skin. Apricot Kernel oil is a clear, pale yellow liquid that is virtually odourless. It is obtained by pressing of the seed (stone) of the ripe apricot fruit.

Acai Berries (Euterpe Olerace)**Vegan, Cruelty Free, Safe for Pregnancy.**

The berry has antioxidant properties to fight against skin damage. It also has anti-inflammatory effects to treat skin conditions. The acai berry is called the beauty berry in Brazil because of its anti-aging properties that include amino acids and immune system enhancers that restore skin health.

Argan Kernal Oil (Arganla Spinosa)**Safe for Pregnancy, Contains Nuts, Vegan, Cruelty Free**

Argan Kernel Oil is obtained from the nut that is found inside the fruit of the Moroccan Argan Tree. The oil is cold pressed, and widely known as "Moroccan Gold", thanks to its superb skin rejuvenating properties. Argan Oil is particularly nourishing for the skin, because it is rich in antioxidants, essential fatty acids, and vitamin E. In fact, its vitamin E content means it is effective in increasing the skin's elasticity, leaving the skin feeling plumper and softer. This non-greasy, non-irritating oil can help to repair damaged skin and hydrate dry skin too, making it one of Mother Nature's nourishing superfoods!

Avocado Oil**Vegan, Cruelty Free, Safe for Pregnancy**

This popular superfood is packed full of skin-boosting nutrients that help to rejuvenate the skin. Avocado oil is rich in Essential Fatty Acid Omega 3 and antioxidants that help to repair the skin and protect it from harmful UV damage. Omega 3 also has anti-inflammatory properties that can help to soothe skin conditions like dryness and psoriasis. Sterolin is abundant in avocado oil, which helps to soften the skin and reduce visible signs of ageing, such as age spots. Avocado oil is full of vitamins too – mainly vitamins A, D and E, which nourish and hydrate dry, ageing skin.

Almond Oil

Contains Nuts, Cruelty Free, Vegan Free, Not safe during Pregnancy

Lighten dark circles and reduces under eye puffiness - This is due to almond oils anti-inflammatory properties, helping skin to look brighter and fresher. Relieve dark spots, eczema & rashes - Almond oil contains emollient properties, which makes it an excellent substance for improving both complexion and skin tone. Is an effective treatment at treating pigmentation.

Ammonium Laureth Sulfate

Not safe during Pregnancy.

Used primarily as a detergent cleansing agent; considered gentle and effective.

This helps with the mixing of oil and water. It can clean the skin by helping water to mix with oil and dirt so that they can be rinsed away or suspend poorly soluble ingredients in water.

Acrylate

Vegan

is a synthetic ingredient used to improve the texture and feel of skincare and cosmetic formulations. It is mainly used as a thickening agent, texture enhancer, film-forming agent, and emulsifier in cosmetics and skincare products.

Allantoin

Natural, Vegan

Extracted from the root of the comfrey plant, Allantoin is a non-irritating ingredient that soothes and protects the skin. With the ability to help heal the skin and stimulate the growth of new tissue, it is a great all-rounder for keeping skin at the top of its game.

Arginine

Vegan, Cruelty Free, Not safe During Pregnancy.

is a naturally occurring amino acid. It has skin- and hair-caring properties and helps maintain the skin's moisture and smoothness.

Avena Sativa (Oat) Extract

Vegan, Vegan, Nut Free, Pregnancy Safe.

When topically used it can soothe, smooth and nourish the skin and hair. Avena Oat Extract WS is recommend for all skin types, but especially for sensitive skin and dry and flaky skin. This is useful in moisturises, anti-ageing products, smoothing and soothing products. It is a century old topical treatment for a variety of skin barriers conditions including dry skin, rashes and eczema.

Activated Charcoal

Vegan, Natural, Nut Free Pregnancy Safe.

Research has shown that activated charcoal can absorb toxins in your body, some beauty experts believe that a charcoal face mask can help draw impurities and dirt form your skin. Reduces acne breakouts. An accumulation of sebum (skin oil) and bacteria can clog your pores, resulting in breakouts. Activated charcoal effectively cleanses the skin, unclogs pores, removes deeper impurities, and dead skin cells. The results is smooth , supple and even tones skin.

B

Betaine

Vegan, Pregnancy Safe

Betaines are cell communicating ingredients which are naturally derived from sugar beets. It is also a mighty Amino Acid. They act as osmolytes to help maintain a healthy water balance in skin cells, stimulating the skins natural hydration process. Betaine is useful in anti-aging products to help prevent wrinkles. Its moisturizing

properties soften skin's texture and effectively fill increases to reduce the deep appearance of wrinkles. Betaine's essentially a topical Face Filter. Betaine soothes and protects the skin.

2-Bromo-2-Nitropropane-1, 3-Diol

Organic

used as a preservative in cosmetics. It is colourless to pale. It is formulated in a wide variety of cosmetic and personal care products. It prevents bacteria growth and protects the cosmetic product from spoilage.

Benzyl Alcohol

Natural, Organic, Vegan

A solubilise for essential oil.

Benzyl Alcohol is a little different to the other "bad" alcohols. It is a listed allergen with the EU but it is also a product necessary to keep organic and natural skincare products safe from bacteria. Benzyl Alcohol is found naturally in essential oils and is an approved preservative under the COSMOS Organic Certification criteria. It is used by many organic and natural brands (including ourselves) because of this. It allows us to create more active formulations which are natural as many other natural/organic preservative choices are not compatible.

Bees Wax

Vegetarian , Cruelty Free, Safe during Pregnancy, Natural Ingredient.

A natural wax taken from the honeycomb which has a protective action. It is an Anti-inflammatory and forms a protective layer between the skin and the environment. It is high in vitamin A which has been found to support cell reconstruction and health.

Baobab Seed Oil

Safe During Pregnancy, Vegan, Cruelty Free, Contains Nuts

Is a Rich source of omega fatty acids that helps fight inflammation which makes it a good choice for sensitive and inflamed skin. Made from a fruit which is rich in Vitamin C, Calcium, Potassium and Iron. Linoleic Oil also contains Linoleic acid. Pressed from the seeds of the baobab tree, baobab oil is a luxurious, nutrient rich oil with many health benefits.

Bisabolol

Vegan , Cruelty Free, Safe During Pregnancy.

Natural Ingredient. Naturally present in German chamomile and as well in tree bark of the candela tree of brazil. Used as a fragrance in skin care but also has soothing, Anti-ageing, and skin lightening properties.

Butyrospermum Parkii (shea Butter)

Vegan, Safe During Pregnancy, Cruelty Free, Contains Nuts.

Shea Butter is a fat extract from kernels of the shea tree. The shea Tree is Native in Africa. It is 100% Plant Base. It is High concentrates of fatty acids, vitamins which makes an excellent skin softening ingredient. Using this on your face or body can condition, tone and sooth your skin. It is an excellent anti-inflammatory and healing ingredients.

Benzyl Salicylate

Vegan, Cruelty Free, Natural,

Is a Chemical Compound.

Benzyl salicylate is a liquid with a very light sweet, floral, and balsamic aroma.

Benzyl salicylate is a naturally occurring constituent of essential oils, including Cananga and ylang ylang oils. Sometimes used as a safe synthetic version to fragrance products and for its fixative effect on floral scents,

helping perfumes to last longer. Benzyl Salicylate is an ester of salicylate and Benzyl Alcohol you can find it cloves and several fragrant essential oils.

Benzly Benzoate

Organic, Vegan, Pregnancy safe, Nut Free

In skin care it plays a number of roles depending on the product it can act as a fragrance, a solvent, a plasticiser a preservative and a fixative, due to its ability to kill microbes. It is also a medical treatment for scabies and lice but is no longer a first choice as can irritate the skin. Benzyl Benzoate results from the condensation of benzoic and benzyl alcohol. Benzyl alcohol is derived from fruit and comes in the form of a colourless liquid and has a slightly sweet scent.

C

Citric Acid

Safe During Pregnancy, Vegan, Cruelty Free

Is present in citrus fruit such as oranges, lemons, grapefruit, and berries. It is a great Exfoliant and helps to unclog pores and helps to brighten the skins complexion. Citric Acid targets the skins Hydrating Support Matrix to reduce the appearance of fine lines and wrinkles.

Chamomile/ Roman Chamomile/ English Chamomile

Pregnancy Safe, Vegan, Cruelty Free.

A gentle, soothing oil with an aroma similar to that of apples. Chamomile is excellent for use in skincare as its soothing properties are greatly beneficial for treating dry, mature skin.

Chamomile oil is an essential oil that has been used for a variety of conditions, from digestive issues to wound healing, for many years. Emerging research has begun to shed light on other potential benefits, like its ability to help with depression, anxiety, and sleep.

Coconut Oil or Cocos Nucifera (coconut) kernel oil / Oleum Cocos

Pregnancy Safe, Vegan, Cruelty Free. Possible Allergy,

Has many benefits to the skin including reducing inflammation, keeps skin moisturised and helps wounds to heal. The fatty acid which is found in coconut oil also possess antimicrobial properties that can help treat acne and protect the skin from harmful bacterial.

Cetyl Alcohol / Cetearyl Alcohol

Pregnancy Safe, can be Vegan and Cruelty Free, Coconut Base.

It is used to soften the skin and hair to thicken and stabilise the cosmetic product as an emollient. Cetearyl alcohol is a chemical found in cosmetic products. It is a white, waxy substance made from cetyl alcohol and stearyl alcohol, both fatty alcohols. They are found in animals and plants, like coconut and palm oil. Cetyl Alcohol NF is a, 95% pure and natural, fatty alcohol from Coconut Oil.

Citral

Pregnancy safe after second trimester, Vegan, Cruelty Free

Is a component of lemongrass oil and oils of verbena, lemon myrtle, lemon, and orange. It is used in the formulation of many products such as aftershaves lotions, bath products, moisturisers, perfumes and colognes and essential oil.

Citronellol

Not Pregnancy Safe, Vegan, Natural Ingredients, Cruelty Free.

Used in the formulation of aftershaves, lotions, bath products, cleansing products, moisturisers, perfumes, and colons. Functions as a fragrance ingredient. Is a colourless oily liquid. Citronellol is found in the oil of the rose and Pelargonium Geraniums.

Caprylic / Capric Triglyceride

Vegan, Cruelty Free, Possible Coconut Base,

Caprylic / capric triglyceride is an oily liquid made from palm kernel or coconut oil. Caprylic/capric triglyceride creates a barrier on the skin's surface, which helps to reduce skin dryness by decreasing the loss of moisture. Caprylic/capric triglycerides are naturally occurring in coconut and palm kernel oils at lower levels but to make this pure ingredient, the oils are split and the specific fatty acid (capric acid and caprylic acid are isolated and recombined with the glycerin backbone to form the pure capric/caprylic triglyceride which is then further purified (bleached and deodorized) using clay, heat and steam. No other additives or processing aids are used.

Carbomer

Vegan, Man made ingredient, cruelty free, Pregnancy Safe.

Carbomer* is vegan, man-made ingredient. Used as an emulsifier to help stabilize and thicken solutions with different ingredients solubility. It helps to control the consistency and flow of cosmetic products, as well as provide lotions, creams, gels with a smooth silky texture.

Cucumber Extract (Cucumis Sativus)

Pregnancy Safe, Vegan and Cruelty Free

This extract has refreshing and moisturising properties and is useful to soothe inflamed skin. It has anti-inflammatory properties and can repair the skin and give it a softer smoother appearance. Another benefit is that the PH value is identical with human skin.

Camellia Seed Oil

Vegan, Cruelty Free, Pregnancy Safe.

Protects the skin from free radical damage, stores moisture balance in dry skin, soothes, irritation and forms a protective barrier against sun damage. Refines mature skin and nourishes the complexion. Also known as tea seed oil but its green tea oil it comes from the seeds of Camellia Oleifera a plant of which all the tea is made from.

Carrot seed oil

Vegan, Cruelty Free, Not safe During Pregnancy.

Carrot seed oil is a type of essential oil. It is extracted via steam distillation from the seeds of the Daucus carota plant. This flowering plant, known for its white blossoms and carrot-scented roots, is also called wild carrot and Queen Anne's lace. It has good anti-ageing properties and has shown antibacterial, antifungal, anti-inflammatory, and antioxidant properties. But what it doesn't have is all the vitamins and nutrients provided by carrots.

Collagen (Marine) / Hydrolysed Collagen

Pregnancy safe. Not Vegan.

Collagen is the main protein of connective tissue in animals. It takes the form a long fibrous bundle called collagen fibres. These fibres give structure and support to the tissue and cells. It is responsible for skin strength and elasticity and its degradation leads to wrinkles. Marine collagen is derived from the skin, bones, and scales of fish. After the flesh of the fish is removed for food, the fish viscera (that is everything that is left!) is cleaned and the collagen is extracted. The large collagen molecules form a tightening film on the surface of the skin to smooth fine lines, firms and tone the skin.

Citrus Aurantium (neroli) peel oil

Pregnancy safe at second trimester, Vegan and Cruelty Free

Neroli oil is an essential oil, extracted from the flowers of bitter orange trees (*Citrus aurantium* var. *Amara*). It is also known as orange blossom oil. The oil is extracted from the flowers by steam distillation. This oil is known to help with depression, anxiety, high blood pressures and menopausal symptoms.

Citrus Aurantium (Petitgrain) Flower and Leaf Oil

Pregnancy Safe at Second Trimester, Vegan, Cruelty Free.

Petitgrain essential oil - *Citrus Aurantium Amara* (Bitter Orange) Leaf Oil. ... It has a citrus and floral aroma. Petitgrain originates from Paraguay and is extracted by steam distillation from the leaves of the *Citrus aurantium*. Petitgrain essential oil can be used to support a healthy nervous system—particularly with nervous stress and calming nerve excitement as well as soothing nervous digestive tracts. It also promotes healthy skin and hair and is particularly good for oily skin.

Cocamid DEA (Cocamide Diethanolamine)

Coconut Base, Not safe During Pregnancy.

Cocamide DEA, a chemically-modified form of coconut oil used as a foaming agent or thickener, is used in many personal care products, such as shampoos, conditioners, sanitizers, hand washes, hand moisturizers, bubble baths, exfoliants, bath scrubs and bath oils.

Cocoamidopropyl Betaine (CAPB)

Natural, Coconut Base, Vegan, Pregnancy Safe.

Is a chemical compound found in many personal care products and house hold products. CAPB is surfactant, which means that it interacts with water, making the molecules slippery so they don't stick together. When water molecules do not stick together, they are more likely to bond to dirt and oil so when you rinse your hair the dirt will rinse away. Is a synthetic fatty acid made from coconut, so products that are considered "natural" can contain this chemical.

Coco-Glucoside

Coconut Base, Vegan, Cruelty Free, Not Pregnancy Safe.

Coco Glucoside is a natural, non-ionic, surfactant. Like Decyl Glucoside it is ultra-mild, and one of the most gentle of the cleansing agents, making it ideal for all foaming and cleansing products, especially those designed for fragile or sensitive skin. Coco glucoside is a cloudy liquid derived from coconut.

Chlorphenesin

Not Pregnancy Safe.

Chlorphenesin is a synthetic preservative used in skin care as a cosmetic biocide. Most commonly, chlorphenesin is incorporated into cosmetics as a method of preventing bacteria contamination, which may help to prolong product quality and longevity.

Citrus Aurantifolia (lime) oil

Vegan, Cruelty Free, Pregnancy Safe at second trimester.

Lime essential oil has antiseptic properties. Helps treat internal infections and disruptions in the GI tract. Works well against sores, gangrene, psoriasis, acne, dandruff, ulcers, rashes, carbuncles, and other topical skin issues. Helps balance blood sugar. Stimulates hunger. Promotes blood coagulation. Rich in vitamin c & a. Helps external signs of aging like wrinkles, fine lines and sunspots. Tightens pores. Helps skin shed dead cells easier and evens skin tone.

Carrageenan

Pregnancy Safe, Vegan, Plant based.

Carrageenan is also a water-binding agent, which means it helps hold water onto the skin and hair, increasing hydration. You're likely to find it in products like moisturizers, shampoos, conditioners, and toothpastes.

Calcium

Natural, Pregnancy Safe.

Calcium regulates cell turnover by stimulating certain enzymes, giving you plumper skin. Calcium also helps improve skin barrier function, which protects your skin against invading pathogens and locks in moisture. People with dry, fragile skin in particular benefit from calcium-rich skin care products. Calcium works with the epidermis to produce sebum, a natural skin-coating substance that keeps the skin to maintain its natural moisture. Inadequate amount of calcium produces less sebum leaving the skin dry and unhealthy.

CI 191140 (yellow 5)

Is a synthetic cosmetic colourant.

CI 16035 (Red 40)

Is a synthetic cosmetic colourant.

CI 42090 (Blue 1)

Is a synthetic cosmetic colourant.

Calendula Flower Extract

Natural, Vegan, Cruelty Free, Not Safe During Pregnancy.

If often used as a complementary or alternative treatment. Calendula oil has antifungal, anti-inflammatory and antibacterial properties that might make it useful in healing wounds, soothing eczema and relieving diaper rash. It is also used as an antiseptic. It is a natural oil extracted from Marigold flower (Calendula Officinalis).

Crosspolymer

Natural, Pregnancy Safe

Is a silicone derivate that is used in skincare and cosmetic product formulations to improve texture and help condition the skin and hair.

Coconut Alcohol

Vegan, Nut Free, Coconut Base, Pregnancy Safe.

Is a mixture of fatty alcohols derived from coconut acid. It is an emollient, foam booster and helps to stabilise the product.

Caramel

Natural, Vegan, Pregnancy Safe.

Natural Colouring Agent it is derived from heating edible sugar. In cosmetic products and personal care products, caramel is used in the formulation of a wide variety of product types. It has many health benefits high in calcium, it exfoliates dead skin and give a glowing and flawless skin, makes skin soother. Caramel is a natural skin softener.

Clove leaf

Organic, Natural, Nut Free, Not Safe During Pregnancy.

Originated from the Molucca island and believed to be one of the first spices traded, clove has been around for centuries. Adopted by both ancient and modern cultures for culinary and healing properties. The clove has an intriguing past. It is used to soothe the skin which is thanks to the anti-inflammatory element which will help calm irritated skin and help to reduce the appearance of redness, pigmentation and puffiness. Deionize water**Pregnancy safe, Natural. Vegan**

As you may have guessed, deionized water is also known as pure water, which is safe and beneficial for the hair, skin and body. Deionized water is used in medicines, batteries, and many other products because of its purity level.

3 Diol Methylchlorolsothyasoline

Is used in the manufacture of water-based cosmetics.

Dimethicone/Vinyl Dimethicone Cross polymer**Pregnancy Safe**

Dimethicone-vinyl-dimethicone-crosspolymers are flexible silicon polymers consisting of dimethicone copolymers that are crosslinked. It acts as viscosity increasing agent, dispersing agent, an emulsion stabilizer, and a hair fixative. It is used in deodorants, makeup, skin and hair care products.

Dehydracetic Acid**Natural, Organic, Vegan.**

Used as a preservative in cosmetics. Not irritating to the skin or allergy causing. Dehydroacetic acid & Benzyl alcohol are both Organic compounds which are accepted for use in natural cosmetics, offering a broad spectrum of stability at a wide range of pH. The Organic preservative compound is a non-paraben, non-formaldehyde, non-isothiazolone based preservative system.

Disodium Cocoamphoacetate**Coconut Base, vegan, natural ingredient, Safe During Pregnancy.**

Is an amphoteric surfactant commonly used in personal care products. It is a mild foaming agent. It increases the foaming power of a solution by increasing the surface viscosity of the liquid that surrounds the individual bubbles in a foam.

* Derived from the fatty acids found in coconut oil. An imidazoline-derived amphoteric organic compound.

Disodium Edta**Vegan, Cruelty Free, Pregnancy Safe.**

Allows better cleansing use as it enables cosmetic products to foam. This is a synthetic ingredient.

Dihydroxyacetone**Vegan, cruelty free, Pregnancy Safe.**

Vegan DHA, or Dihydroxyacetone, is a hydro soluble powder that offers a natural and safe tan. When using a self-tanner, the pigmentation must be natural and harmonious with your skin colour. The vegan DHA gives everyone a unique tone according to their cocktail of amino acids.

Dmdm Hydantoin**Vegan, organic**

DMDM hydantoin is a preservative in cosmetics and personal care products. It works by slowing and preventing spoilage in products such as shampoos and hair conditioners, and in skin care products like moisturizers and makeup foundations.

Dead Sea Salts**Vegan, Cruelty Free, Pregnancy Safe, 100% Natural.**

Sourced Directly from the dead sea. Naturally rich in Magnesium, Calcium and Potassium. Helps relaxation, easing of sore muscles, provides relief for certain skin conditions.

Distilled Witch Hazel (Hamamelis Virginiana)

Vegan, Cruelty Free, Safe During Pregnancy.

In cosmetics and personal care products, Hamamelis Virginiana (Witch Hazel) Water and Hamamelis Virginiana (Witch Hazel) Leaf Water function as a skin conditioning agent. They enhance the appearance of dry or damaged skin and help to reduce flaking and restores the suppleness of skin.

Dimethicone

Natural, Pregnancy Safe.

Dimethicone is a silicone-based polymer that is frequently used as a skin protectant in skincare products. The second most common moisturizing ingredient found in moisturizers after petrolatum, dimethicone has skin-conditioning properties and helps improve the skin's softness and flexibility. Dimethicone is considered a synthetic ingredient, even though it's derived from natural silicon. Applied to skin, dimethicone forms a permeable barrier that works to prevent moisture loss and impart a wonderfully silky feel. Dimethicone is considered safe as used in cosmetic products. Because of its fluid properties it helps to improve the texture of skincare which helps the products to glide across the skin. It also helps to fill in pores and fine lines, therefore it's often found in primers.

Dimethicone Crosspolymer

Natural, Pregnancy Safe

Dimethicone crosspolymer is a silicone derivative that is used in skincare and cosmetic formulations to improve texture and help condition the skin and hair. Dimethicone crosspolymer is a type of silicone. Silicones are synthetic ingredients made up of repeating units of siloxane which is elemental silicon and oxygen. Therefore silicones may also be referred to as polysiloxanes, as they are made up of many repeated siloxanes.

Dead Sea Mud

Vegan, Natural, Nut free, Cruelty Free, Not safe during Pregnancy.

The Dead Sea is a salt water lake in the Middle East, bordered by Israel and the West Bank to the west, and Jordan to the East. The geographical features of the Dead Sea — including the fact that the lake is at the lowest sea level of any body of water on earth and surrounded by mountains — makes the surrounding silt and mud rich with a unique combination of minerals like magnesium, sodium, and potassium.

People use Dead Sea mud to treat health conditions ranging from psoriasis to back pain. A great deal of research backs up claims that Dead Sea mud can relieve pain, reduce inflammation, and more.

Dead sea mineral mud is a natural element yielded by harvesting from the mineral rich dead sea.

Dead Sea minerals mud has hydrating, beautifying, purgative and relieving properties and is known to relieve various symptoms of skin and musculoskeletal ailments. Used topically dead sea mineral mud accelerates the skin's detoxification process, draws out excess oil, tightens and exfoliates to remove dead skin.

- Magnesium: helps to prevent and cure skin allergies as well as tighten the skin (cellulite). It also helps us fight stress and combat fatigue
- Potassium: helps to maintain moisture and water balance in the body.
- Calcium: keeps water retention in check, promotes healthy bones and can help stave off osteoporosis
- Bromide: has a soothing effect on tired, sore muscles and helps you to relax.
- Sodium: plays a significant role in managing the balance of lymphatic fluid in our bodies. It also provides

Denatured Alcohol

Vegan, cruelty free, Pregnancy Safe

Is used in cosmetics and skincare products (such as toners) as a drying agent. It dries quickly, neutralises oil and gives the skin a smooth matte feel. Denatured alcohol is ethanol that's been mixed with other ingredients. Ethanol also known as grain alcohol is alcohol at its most basic. Is present in many commercial hand sanitisers.

E

Ethylhexylglycerin

Coconut Base, Vegan, Natural and Cruelty Free, Pregnancy Safe

Clear Liquid Preservative from vegetable glycerin often coconut or palm oil. It is a multifunctional cosmetic ingredient as an emollient in skin care products and boosts the products performance to avoid it getting spilit. It is also really good skin conditioning agent which help to improve the appearance of the skin.

Eugenol

Vegan, Cruelty Free, Pregnancy Safe.

Naturally occurring substance found in many plants used to make fragrance and flavours. Volatile fragrance chemical that occurs naturally in cloves, basil and bay leaves among other plants. It is a yellow liquid and has a warm spicy aroma. It has excellent antiseptic and anti-inflammatory and helps to treat tooth ache.

Euphrasia Officinalis (Eyebright) Herb Extract

Vegan, Cruelty Free, Pregnancy Safe.

Eyebright (Euphrasia officinalis) is a wild plant native to Europe. Long used in herbal medicine, it's typically touted as a natural remedy for eye problems. Eyebright contains compounds called tannins, which appear to possess anti-inflammatory properties. Euphrasia Officinalis' (Eyebright) astringent properties account for its usefulness as a topical treatment for under-eye puffiness and dark circles.

Ethoxydiglycol

Vegan, Synthetic, Pregnancy Safe

Ethoxydiglycol is an ingredient used in skincare and haircare products to improve the texture and function of formulations. It is mainly used as a solvent, allowing other ingredients to be dissolved into the formulations which help key ingredients to work more effectively.

F

Floral water

Vegan, Natural, Cruelty Free, Pregnancy Safe.

Rose Floral Water: Rose Floral Water contains an array of vitamins and antioxidants. It has excellent moisturizing properties for dry skin and offers antiseptic and astringent properties suitable for skin prone to acne. Highly recommended to refresh tired skin and delight you with its beautiful fragrance. Floral waters are a by-product from the steam distillation of essential oils. They are also known as hydrolats. Floral waters can be added into skincare routines for refreshing and revitalising the skin. They contain all the beneficial essences of the plant from which they are extracted from

Fucus Vesiculosus (Seaweed) Extract

Natural Ingredient, Vegan, Not Safe During Pregnancy,

Fucus vesiculosus extract, also known as bladderwrack, is a type of brown algae (seaweed) that is edible. Its nutrient profile benefits the body when consumed, but it can also benefit skin when applied topically. When added to skin care products Fucus Vesiculosus extract reduces wrinkle depth, corrects small imperfections and improves skin texture.

Frankincense Oil

100% pure, Vegan, Cruelty Free, Safe During Pregnancy.

Used in biblical times, this Essence has an exotic, warm fragrance. It has excellent vaporising qualities with an antiseptic, soothing effect on the lungs. Frankincense is used in skincare for treating dry, mature skin. It also has

a soothing and balancing effect on the emotions. Frankincense oil is prepared from aromatic hardened gum resins obtained by tapping Boswellia trees.

G

Glyceryl Stearate

Safe During Pregnancy, vegan.

Glyceryl stearate slows down the trans epidermal water loss from the skin by forming a film on the skin's surface. This helps to maintain the moisture balance needed for the skin to be healthy and lubricates the skin's surface to give it a soft and smooth appearance.

Geraniol

Plant Based, Vegan and Cruelty Free, Pregnancy Safe at second trimester.

Geraniol is a naturally-derived fragrance that comes from plants such as Geraniums, Palmarosas, Java Citronell, and Roses. It offers an elegant but not overwhelming scent. In addition to the scent, geraniol is rich in antioxidants, has antibacterial and anti-inflammatory properties that may help the skin.

Goji Berries (Lycium Barbarum)

Pregnancy Safe, Vegan, Cruelty Free

The Antioxidants found in this helps our skin to retain moisture and efficiently regenerate cells for a soft, youthful complexion. Packed with tons of different types of vitamins, minerals and other nutrients. Goji Berries also help reduce acne, promotes collagen production and evens out skin tone.

Ground Almonds

Contains Nuts, Pregnancy Safe, Natural, Vegan, Cruelty Free.

Almonds are rich in vitamin-E, which nourishes and softens the skin when applied daily. Applying almond oil or its milk also is beneficial as it protects the skin from damage caused by sun exposure as well.

Geranium

Vegan, cruelty free, Pregnancy Safe after second Trimester.

Geranium has a delicious, floral fragrance and is widely used in skin care for all skin types. It has a balancing, refreshing effect and is also used as an insect repellent. Geranium Essential Oil is known to effectively eliminate dead cells, tighten the skin, promote the regeneration of new skin, and diminish signs of aging. Used medicinally, Geranium Essential Oil works as an anti-inflammatory and anti-septic agent.

Glycerin (vege)

Vegan, Natural, Pregnancy Safe

A Vegetable sourced humectant and emollient.

Glycerin is a humectant, a type of moisturizing agent that pulls water into the outer layer of your skin from deeper levels of your skin and the air. In skin care products, glycerin is commonly used with occlusives, another type of moisturizing agent, to trap the moisture that it draws into the skin.

Golden Sugar Granules

Vegan, Natural, Pregnancy Safe, Nut Free.

Skin care formulated with sugar granules are used to help physically exfoliate that dead skin cell buildup. Exfoliating with a sugar scrub can help create the appearance of smoother, glowing skin.

Guar Hydroxypropyltrimonium Chloride

Organic, Not Safe During Pregnancy.

Guar hydroxypropyltrimonium chloride is a water-soluble, organic compound that is a quaternary ammonium derivative of guar (aka cluster beans). Although a great conditioning agent for both skin and hair, guar hydroxypropyltrimonium chloride is especially beneficial as a hair care product. Because it is positively charged, or cationic, it neutralizes the negative charges on hair strands that cause hair to become static or tangled. Better yet, it does this without weighing hair down. With this ingredient, you can have silky, non-static hair that retains its volume.

Glycerin

Natural, Pregnancy Safe.

Also known as glycerol, is a natural compound derived from vegetable oils or animal fats. It's a clear, colourless and syrupy liquid with sweet taste. It is a humectant a type of moisturizing agent that pulls into the outer layer of your skin from deeper levels of your skin and the air. In skin care products glycerin is commonly used with Occlusive another type of moisturizing agent, to trap the moisture that is draws into the skin.

Gluconate

Natural, Vegan, Pregnancy Safe

Gluconate is a neutralized form of salt of gluconic acid.

Ginger

Natural, Vegan, Cruelty Free, Nut Free, Pregnancy Safe.

The Anti-oxidant in ginger can be used to help preserve the skins collagen, making it an all-natural ingredient for anti-ageing routines. It is packed with more than 40 antioxidants that are said to fight the tell-tale signs of ageing. Not only does ginger help your skin by flushing out toxins, it also encourages blood circulation. Other benefits include reducing the damage that is caused thanks to free radicals and making the skin more taunt.

Grapeseed Oil

Natural, Vegan, Nut Free, Pregnancy Safe

Grapeseed Oil come from the pressed seeds of grapes. The oil is a by-product of the process of making wine it is known for its anti-inflammatory, antimicrobial, antioxidants properties. It's also has many benefits helps treat acne outbreaks, makes skin softer and more elastic, evens out skin tone, protects the skin from sun damage.

H

Hippophae Rhamnoides (seabuckthorn) seed oil

100% Natural, Vegan, Cruelty Free, Safe During Pregnancy.

The sea buckthorn seed oil has a strong healing property (Epithelialising), is moisture-binding and has a healing effect on the skin. It is ideal for the care of flaky, dry skin. Hippophae Rhamnoides Oil, Hippophae Rhamnoides Fruit Oil. This oil is extracted from the pulp of the sea buckthorn berry. It distributes easily over the skin and absorbs quickly. Due to its high content of carotenoids, it has potent cell-regenerating, anti-inflammatory and antioxidant properties.

Helianthus Annus Seed Cera (sunflower wax)

Natural, Vegan, Cruelty Free, Pregnancy Safe.

Refined Sunflower wax (Helianthus Annuus Cera) is a hard vegetable wax obtained from the winterisation of sunflower oil. ... Natural Sunflower Wax is used in formulating skin and sun care creams, colour cosmetics, lip balms, mascara, massage butters, creams and lotions. Extraction: obtained from Helianthus Annuus sunflower seeds, mainly from the pericarp and integuments. Benefits: it stands out for its content in essential fatty acids and vitamins A, D and E. It represents an excellent repairing agent and acts against the oxidation of skin lipids. It prevents dehydration and has calming, nourishing and antibacterial properties.

Helianthus Annus (sunflower seed oil) / The Patented Sunflower Seed Oil

Natural, Vegan, Cruelty Free, Pregnancy Safe.

Helianthus annuus (sunflower) seed oil is a non-volatile, non-fragrant plant oil used as an emollient in cosmetics. ... This oil also contains other beneficial fatty acids skin can use, including oleic, palmitic, stearic, and a small amount of omega-3 linolenic acid. Sunflower seed oil also has a natural calming effect on skin, so can be helpful for reducing signs of skin stress or irritation. Sunflower Oil Skin Benefit is also a good Antioxidant and Moisturizing.

Hydrolyzed Amaranth Protein

Gluten Free, Vegan, Natural, Safe During Pregnancy.

Sodium cocoyl hydrolyzed amaranth protein is derived from amaranth (plant), a gluten free grain. Amaranth contains essential amino acids, which provides a nourishing effect on the skin. It is used in conditioning and cleansing formulations.

Hydroxypropyl Cyclodextrin

Natural, Vegan

A plant derived or synthetic carbohydrate that functions as a chelating agent and stabilizer.

Indian Chiretta extract

Natural, Vegan, Natural, Nut free

Known as 'chirayata' in Hindi, chiretta is a traditional herbal medicine that is prepared with the aerial parts of the herb. 100% natural anti-aging serum great for masking wrinkles and rejuvenating skin. The herb swertia chiretta is indigenous to the foothills of the Himalayas in the northern region of India as well as in Nepal. It is a Chemical constituent of many natural fragrant ingredients. Like most volatile fragrance components this has strong antioxidant benefits and has shown to calm skin.

Linalool

Vegan, Natural, Cruelty Free, Pregnancy Safe.

Linalool is used in floral fragrances. It occurs naturally in many essential oils. Linalool is a colourless liquid with a soft, sweet odour. It occurs naturally in many essential oils, such as tangerine, spearmint, rose, cypress, lemon, cinnamon and ylang ylang. It has a soft, sweet scent. Ho wood oil in used in some fragrances, which is linalool in its natural form, for the woody, sweet note it gives. Even when ingredients are naturally occurring fragrance constituents, they are included in quantitative ingredients lists, this enables people to decide which product is right for them.

Liquorice Root Extract

Not Safe during pregnancy, Vegan, Natural, Cruelty Free

It is a plant extract that has skin-soothing properties. In addition, liquorice root may be effective in improving the look of an uneven skin tone. One of its components known as glabridin, is a protein antioxidant and skin soothing ingredient, which is why liquorice often shows up in products meant for sensitive and reddened skin.

Lecithin

Vegan, Natural, can contain Soy.

Lecithin works well as a thickener, stabilizer, and preservative, making it useful in a range of beauty products. Lecithin also helps fight dry and damaged skin, working effectively as a moisturizer, it can help to treat conditions such as eczema. The lecithin can be obtained by water degumming the extracted oil of seeds. It is a mixture of various phospholipids, and the composition depends on the origin of the lecithin. A major source of lecithin is soybean oil.

Lactic Acid

Vegan, Pregnancy Safe, Cruelty Free

Lactic acid is specifically used to treat hyperpigmentation, age spots, and other factors that contribute to a dull and uneven complexion. Other benefits of AHAs like lactic acid include improved skin tone and reduced pore appearance. However, unlike AHAs such as glycolic acid, lactic acid is a bit milder. Lactic acid is made from beet sugar, cane sugar, corn, and tapioca. Lactic acid is frequently used as an exfoliant and in anti-wrinkle products, and in our body wash, it functions as a natural preservative. Lactic acid is also a substance the human body produces.

Lime

Vegan, Natural, Pregnancy Safe

Helps Rejuvenate the skin and protects it from infection, that's to its antioxidant, disinfectants and antibiotic properties. The presence of large amount of Vitamin C and Flavonoid in Lime juice helps reduce the body odour and sweat.

M

Mandarin peel oil

Vegan, Cruelty Free, Natural, Pregnancy Safe at second trimester.

Is Rejuvenating, with its ability to renew your complexion, Mandarin Essential Oil can be used to help to even out the skin tone. Whether the problem is pigmentation or other blemishes, its antibacterial and anti-inflammatory properties can help to protect your complexion. Cultivated for over 3000 years, Mandarin Essential Oil derives from the delicate evergreen tree in the oriental climes of China, Vietnam, and Japan.

Mannitol

Natural, Vegan, Pregnancy Safe

A plant or lab made sugar that works in skin care to bind moisture, condition and also helps keep ingredients blended together. It works well with natural occurring substances in skin as hyaluronic acid.

Mango

Natural, Vegan, Pregnancy Safe

It helps to protect the skin against the harmful UV rays of the sun. it also reduces the inflammation caused by acne and brightens up your skin.

Maris Sal (Dead Sea Salts)

Dead Sea Salt is harvested from the mineral-rich waters of the Dead Sea and contains calcium, potassium, zinc and iodine. Dead Sea Salt has been found to be an effective treatment for many skin conditions including rashes, psoriasis, eczema, acne, itchy skin, and everyday problems such as overly dry or oily skin. In addition, Dead Sea Salt contains magnesium and bromide, which disinfect and cleanse your skin, working to make your skin less susceptible to allergies. When you bathe using Dead Sea Salt you'll become relaxed from the inside out, as the warm water in combination with the powerful minerals increases your circulation which in turn can decrease your heart rate, ensuring a calm, chilled and peaceful experience.

Natural salts contain high levels of minerals and nutrients, which are released when mixed with warm water; this solution is often referred to as "sole" or "brine water". Some of these minerals include magnesium, potassium, calcium, bromide and sodium. These minerals are easily absorbed by the skin and are known to cleanse and detoxify (purging impurities, dirt, and pollutants from your pores), leaving the skin smoother, softer, and cleaner. Natural salts can also effectively help to reduce stress and calm the nerves and are ideal for those who suffer from insomnia.

- Magnesium: helps to prevent and cure skin allergies as well as tighten the skin (cellulite). It also helps us fight stress and combat fatigue
- Potassium: helps to maintain moisture and water balance in the body.
- Calcium: keeps water retention in check, promotes healthy bones and can help stave off osteoporosis
- Bromide: has a soothing effect on tired, sore muscles and helps you to relax.
- Sodium: plays a significant role in managing the balance of lymphatic fluid in our bodies. It also provides mineral and water balance to the cells.

These minerals also help to eliminate toxins from the pores, so as a result these natural salts benefit not only our skin, but our entire bodies – from the inside out.

O

Olive Fruit Oil / Olea Europaea (Olive Oil)

Vegan, Natural, Pregnancy Safe.

Olive oil was famously called "liquid gold" for its immense health benefits. Originating from the Mediterranean-region olive tree, olive seed oil naturally contains healthy fatty acids that are beneficial to our bodies. Olive oil contains vitamin A, vitamin D, vitamin K and vitamin E, according to the International Olive Council. Vitamin E is an antioxidant and has anti-aging benefits, as it helps restore damaged skin cells and prevents UV damage from prolonged sun exposure.

P

Peg-6 Capryllic / Capric Glycerides

Coconut base, Vegan, Pregnancy Safe

Used as an emollient/ Conditioning agent for shampoos, skin cleansers, creams, and lotions.

It is usually made from combining coconut oil with glycerin. This ingredient is sometimes called capric triglyceride. It is also sometimes mistakenly called fractionated coconut oil. Caprylic triglyceride has been widely used for more than 50 years.

Potassium Sorbate

Vegan, Not Organic, Pregnancy Safe

Potassium Sorbate is used as a mild preservative in the cosmetics industry and usually is used in place of parabens. The use of potassium sorbate in products extends the products shelf life and inhibits the development of microorganisms. Potassium sorbate is a potassium salt of sorbic acid, a naturally occurring antimicrobial compound. Potassium Sorbate derives from sorbic acid produced by berry fruits of the Mountain Ash tree also known as *Sorbus aucuparia*.

Phenoxyethanol

Organic, Natural, Vegan, Pregnancy Safe

Found in green tea or synthetic

In perfumes, fragrances, soaps, and cleansers, phenoxyethanol works as a stabilizer. In other cosmetics, it is used as an antibacterial and/or a preservative to prevent products from losing their potency or spoiling. When combined with another chemical, some evidence indicates that it is effective at reducing acne. Its main purpose is to stave off the presence and/or growth of bacteria in cosmetic products. Any product that contains water, such as body lotion, has a high risk of developing dangerous bacteria that can pose a serious threat to your health. Therefore, Phenoxyethanol is essential for preventing this and keeping our products safe.

Polysorbate 20

Natural, Not Pregnancy Safe, Vegan

is an ingredient used as an emulsifier in cosmetic creams, lotions, cream deodorant, baby oil, sun lotion, etc. It is used to help mix oil and water. This ingredient exists in the form of a clear to a light-yellow viscous liquid.

Potassium Hydroxide

Natural, Synthetically manufactured, Pregnancy Safe

Highly alkaline ingredient (also known as lye) used in small amounts in cosmetics to modulate the pH of a product. It is also used as a cleansing agent, most often in pure soaps or soap hybrid products. A lye is a metal hydroxide traditionally obtained by leaching wood ashes, or a strong alkali which is highly soluble in water producing caustic basic solutions. Considered not strong enough to make solid soap so is only used for liquid soaps.

Propylene Glycol

Vegan, Not Pregnancy Safe.

Acts as Humectant at a low concentration level. It secures the water and takes it to the outer layer of your skin. Cosmetic products which have this in them are good for the skins hydration and to resolve your skins dryness and dull appearance. It is a colourless and odourless liquid which may be derived from either petroleum, natural gas, or vegetable sources.

Parfum / Fragrance

Natural, Pregnancy Safe, Vegan

Is a Chemical Manufactured scent, that gives products an indulgent feel. But has no functional purpose.

Prickly Pear Oil

Natural, Vegan, Organic, Pregnancy Safe

Prickly pear oil contains many healthful compounds known to have hydrating, antibacterial, and antioxidant properties. Research suggests that the contents of prickly pear oil can reduce skin inflammation, as well as prevent skin damage and acne. Prickly Pear Seed Oil is derived from the seeds of the Barbary Fig Cactus. It takes over 1 million seeds and over 36 hours of manual labour to produce a single litre of oil.

PEG-150 Distearate

Not Pregnancy Safe

PEG-150 distearate is a polyethylene glycol diester of stearic acid. It acts as an effective emulsifier and thickening agent for surfactant-containing hair care products such as shampoo, shower gels. It is also used in other cosmetics applications such as baby bath, conditioner, creams, and lotions.

Peg-7 Olivatate

Not Pregnancy Safe

PEG-7 olivate great additions to facial products. They offer increased emollience and moisturization and a reduction in irritation, which are always great qualities, and those of us with oily skin can often enjoy the benefits using oils without feeling. PEG-7 Olivatate is a polyethylene glycol ester of the fatty acids derived from olive oil.

Pogostemon Cablin (Patchouli) oil

Vegan, Cruelty Free, Natural, Pregnancy safe after 2nd trimester, nut free

Patchouli essential oil is a relaxing, sensual, and soothing essential oil. The soothing, regenerative and antiseptic properties of patchouli essential oil make it invaluable in skin care preparations for dry, mature, problem, or itchy skin. An extremely popular oil in the 1960s. Patchouli oil is an essential oil derived from the leaves of the patchouli plant, a type of aromatic herb. To produce patchouli oil, the leaves and stems of the plant are harvested and allowed to dry out.

Polyglyceryl-4 Caprate

Natural, Vegan, Cruelty Free

Polyglyceryl-4-caprate is a solubilizer, which blends all formula ingredients into a stable and uniformly dispersed product. It is 100% natural and derived from rapeseed oil and RSPO-certified sustainable palm oil.

Pantherol / Vitamin B5

Natural, Pregnancy Safe.

Used as a moisturiser but is also included in many cosmetics as a softening, soothing and anti-irritant agent. It also helps the skin build up a barrier against irritation and water loss. It is an ingredient derived from vitamin B5 or pantothenic acid which is an essential nutrient for your body as a whole. Can be both plant based and animal source.

PEG- 100 Sterate

Not Pregnancy Safe. Vegan

Is a ester of polyethylene glycol and steric acid. The origins are synthetic ingredients is therefore a plastic material. It is used in cosmetics as emulsifier, emollient and surfactant.

Pamitoyl – tripeptide- 38

Is a matriciana-mimetic compound that regulates cell activity, wound repair, and tissue remodelling. It stimulates the synthesis of collagen, fibronectin, hyaluronic acid and laminin 5. It promotes regeneration of skin to make wrinkles and skin smooth and delays the appearance of signs of ageing. It also deeply replenishes nutrient.

Panax Ginseng Root Extract

Natural, Vegan, Pregnancy Safe

Ginseng Root boosts skin hydration, diminishes rough texture, helps fade uneven skin tone and helps visibly improve wrinkles by working within skin to bolster its natural firmness. Panax Ginseng root extract is an extract from the roots of Panax Ginseng plant or Ginseng Plant.

Pineapple

Natural, Vegan, Pregnancy Safe

Is rich in both antioxidant vitamin C which helps fight free radical damage, supports the production of collagen and enzyme bromelain, and brightens complexion.

Pumice

Natural, Vegan, Nut Free, Pregnancy Safe.

Creams and Soaps containing pumice take the form of facial and body scrub with pumice powder. This acts as a gentle exfoliant to remove dead skin cells which cleans the pores and restores skin vibrancy. Pumice is the cooled, hardened, and frothy part of volcanic lava a pyroclastic igneous rock. Liquid lava is ejected into the air and as it froths containing masses of air bubbles as the lava solidifies the bubbles are sealed into the rock.

Potassium Oleate

Natural, Vegan, Nut Free

Is a natural constituent of vegetable oil like sunflower oil. It is an emulsifier and creates a foamy effect when used on the skin. This can kill various bacteria.

Potassium Cocoate

Natural, Vegan, Pregnancy Safe, Coconut Base.

Is a potassium salt that originates from the fatty acids present in coconut oil and is 100% natural. It is a translucent pale, yellow liquid which contains glycerine which is an excellent moisturising agent. Potassium cocoate is a natural surfactant, a chemical that removes dirt from the surface of objects and skin when you mix it with water. This substance loosens and keeps dirt and grease off surfaces until they flow down the drain.

Potassium Citrate

Vegan, Cruelty Free, Pregnancy Safe, Natural.

Is a salt form of citric acid. It's helps to naturally preserve cosmetics and personal care products. citric acid and its salts are also added to cosmetics to help adjust the acid/base balance

Polysorbate 60 (Emulsifying Wax NF)

Not Pregnancy Safe, Vegan, Natural

Is a thickening agent and is a oily liquid used in cosmetic and skin care formulas to dissolve in a solvent in which they would not normally dissolve. It helps keep the skin moisturised and wrinkle free, helps relief dehydrated and ultra-sensitive skin, reduces inflammation and helps in curing several skin disorders such as eczema, psoriasis. It is a plant derived ingredient.

R

Rosehip Fruit oil

Vegan, Cruelty Free, Natural, Not Pregnancy Safe

Rosehip oil is also known as rosehip seed oil. It's derived from the rosa canina rose bush, which is grown mostly in Chile. Unlike rose oil, which is extracted from rose petals, rosehip oil is pressed from the fruit and seeds of the rose plant. Natural exfoliation with rosehip oil can help reduce dullness and leave you with glowing, vibrant skin. That's because rosehip oil is high in vitamins A and C. Vitamin A, or retinol, encourages skin cell turnover. Vitamin C also aids in cell regeneration, boosting overall radiance.

Rice Bran Oil

Vegan , Natural, Pregnancy Safe.

Rice bran has been used for centuries in Japan as a key ingredient in cleansers, masks, toners, and bathing powders to keep skin smooth and supple. The versatile, gentle oil extracted from rice bran effectively reduces signs of aging while soothing, hydrating, and protecting the skin. Rice bran oil is obtained from the outer layer of the rice kernel (the bran). This light golden oil gives soap a rich, creamy texture, but also has many benefits for the skin. Description

Phytic acid is present within the oil. It is a B vitamin complex, and it is said to stimulate circulation and cell growth, revealing brighter skin. Squalene is found in high quantities in rice bran oil. Squalene makes up 12% of human sebum, the skin's natural moisturiser, and is produced in the liver.

Due to its squalene content, rice bran oil has been found to be effective in the treatment of very dry and ageing skin, with improvement in the condition of severe dermatitis.

Studies have shown that squalene stimulates the healing process through oxidation.

Rice bran oil is a natural sunscreen and contains large amounts of vitamin E. Vitamin E is amazingly effective in the fading of scar tissue and improving the general condition of the skin

The oil has a natural affinity with the skin. It is easily spread and absorbed quickly. Skin does not feel greasy after application.

Retinyl Palmitate (Vitamin A)

Natural, Not Safe During Pregnancy.

Vitamin A palmitate is a form of vitamin A. It is found in animal products, such as eggs, chicken, and beef. It's also called preformed vitamin A and retinyl palmitate. Vitamin A palmitate is available as a manufactured supplement. Unlike some forms of vitamin A, vitamin A palmitate is a retinoid (retinol). Retinoids are bioavailable substances. This means they are easily absorbed into the body and used efficiently. Retinyl Palmitate boosts collagen in the skin, minimizes fine lines and wrinkles, and smooths the texture of the skin.

Robusta Coffee

Natural, High Level of Caffeine, Not Safe During Pregnancy.

When Robusta coffee is used as part of an exfoliant, it can help to remove bacteria on the skin and increase blood flow circulation, which can reduce the appearance of stretch marks, signs of ageing and skin conditions.

Ricinus Communis (caster) seed oil

Vegan, Cruelty Free, Natural, Safe During Pregnancy.

Castor oil (Ricinus Communis) is a very thick oil which is absorbed very slowly by the skin. It is often used as an ingredient in lip balms, hand creams and recipes for baby's sore bottoms, due to its soothing and protective qualities. Ricinus Communis (Castor) Seed Oil is a vegetable oil obtained from the seeds of the Ricinus communis plant.

Rosemary

Vegan, Natural, Nut Free, Not Pregnancy Safe.

With its powerful disinfectant and antibiotic properties, the herb can help treat acne and oily skin conditions. When massaged into the face rosemary can help lighten dark spots and blemishes on the skin resulting in an improved skin complexion. It also helps to boost your immune system and improve blood circulation. Rosemary is considered a cognitive stimulant and can help improve memory performance and quality, it is also known to boost alertness and intelligence and focus.

S

Stearic Acid

Vegan, Natural, Cruelty Free, Pregnancy Safe

Fatty acid used as an emollient and emulsifier. It has been shown to protect skin's surface against water loss and help shore up skin's protective barrier. A vegan alternative (also called stearic acid) can be derived from plant fats. As well as being cruelty-free, the vegan version is also less likely to irritate the skin. We use the vegan Option here at Velisha.

Sodium Bicarbonate

Vegan, Natural, Not Safe During Pregnancy.

A synthetic inorganic salt more commonly known as baking soda. It has many functions in cosmetics, including pH adjuster, buffering agent, and abrasive, such as in face or body scrubs. When used in small amounts to adjust and maintain the pH of cosmetic products, baking soda is not a problem for skin. It has many benefits for the skin such as helps clear and break down acne, helps tighten pores, add glow to the skin, mattifies the skin, gets rid of dead skin cells, fights skin infection, aids in pain free hair removal. It is a naturally occurring compound that is found in abundant quantities in the form of the mineral 'natron'.

Sodium Hydroxide

Vegan, Natural, Pregnancy Safe.

Also known as lye, sodium hydroxide is a highly alkaline ingredient used in small amounts in cosmetics to establish and hold the pH of a product. It is also used as a cleansing and denaturing agent. In high concentrations, it is a significant skin sensitizer.

Vegan, Pregnancy Safe

Sodium benzoate is used in a wide variety of cosmetics and personal care products where it acts as a corrosion inhibitor, fragrance ingredient, and preservative. As a preservative, sodium benzoate is primarily an anti-fungal agent but also has some effectiveness against bacteria.

Silica

Vegan, Natural, Pregnancy Safe, Cruelty Free.

Silica can also be produced synthetically and is used as an absorbent powder and thickening agent in cosmetics. Certain forms of silica can improve even distribution of pigments in cosmetics and prevents them from settling in makeup. Silica particles can enhance the absorption of other ingredients.

Occurring in nature in the form of quartz and a major constituent of sand, silica is a quite common mineral found in plants. Used throughout the cosmetics industry, it is put in toothpaste as a polishing agent to remove plaque, but its properties also lend themselves well towards makeup where they help to evenly distribute a product across the skin. When applied to the hair, silica helps smooth and flatten the hair cuticles which promotes shine as they better reflect the light. It also provides a gentle exfoliation that stimulates blood flow and cleanses the scalp, improving its overall health and promoting hair growth.

Silicon and its derivatives (including silica!) are thought to be important in collagen synthesis. Collagen is a key structural protein in the skin and hair and is necessary to keep both healthy and strong.

Silica Silylate

Vegan, Cruelty Free, Pregnancy Safe

Silica Dimethyl Silylate is a silica derivative used in cosmetics and personal care products as an anticaking agent, bulking agent, slip modifier, viscosity increasing agent, emollient, and most often as a suspending agent, according to Silicone Specialties. It is often found in cosmetics and lip products because of its ability to thicken while moisturizing and provide long-lasting wear.

Squalane

Vegan, Pregnancy Safe

It does penetrate pores and improve skin at the cellular level, but it doesn't feel heavy on the skin. According to research, squalane has anti-inflammatory properties that can reduce redness and swelling. While squalane will not clog your pores, natural skin oils, dead skin cells, and bacteria can. It is being derived mostly from plants such as olive and rice bran. It can also be adhered from other plant oils including amaranth seeds, wheat germ and even sugar cane.

Safflower Seed Oil

Vegan, Natural, Cruelty Free, Not Pregnancy Safe.

Carthamus Tinctorius (Safflower) Seed Oil is an edible vegetable oil.

Safflower oil is indicated for individuals with dry or damaged skin. Safflower oil, rich in the essential omega-6 fatty acid linoleic acid, is known to confer health benefits via diet. It is also included in skin care products, such as bath oils, which anecdotally appear to be effective.

Synthetic Fluorophlogopite

Cruelty Free, Vegan.

Synthetic fluorophlogopite, more widely referred to as synthetic mica, is one of the components of the plastic-free glitters, lustres and pigments. Depending on its thickness and the oxides it is coated with, a wide variety of effects, shimmers and colours will be achieved. Synthetic mica is made in a lab. It's purer and thus brighter than natural mica. It has a more uniform finish which does not contain any sharp edges, making it particularly suitable for makeup products used around the delicate eye area.

Sea Salt

Vegan, Cruelty Free, Natural, Pregnancy Safe.

Salt helps to cleanse pores deeply, balance oil production and thwart bacteria that can instigate breakouts and acne.

Sodium Chloride

Vegan, cruelty free, Pregnancy Safe.

More popularly known as common table salt. Used primarily as a binding agent in skincare products and occasionally as an abrasive in scrub products. Perhaps the most common use of sodium chloride in cosmetics is as a thickening agent. Salt is commonly used to thicken the water (also known as aqueous) phase of shampoos, body washes, and non-soap facial cleansers. It's an inexpensive and highly effective, versatile ingredient included in numerous types of cosmetics.

Sucrose

Vegan, Natural, Pregnancy Safe.

Sucrose, fructose and glucose are all natural and all have hygroscopic properties, meaning they attract and retain moisture. In Skin Care products it acts as a natural exfoliator, beneficial in blemish control and helps to restore balance of the skin's natural oils. Sucrose is produced naturally in plants, from which table sugar is refined.

Sucrose Sterate

Vegan, Natural, Pregnancy Safe

Sucrose stearate is a mixture of the sugar sucrose and a natural substance known as stearic acid. In nature, sucrose is found in most fruits and vegetables. Commonly derived from sugar cane and sugar beets, sucrose is the raw material used to make ordinary white table sugar, a common ingredient in many foods.

Sodium Stearoyl Glutamate

Natural Ingredient, Vegan.

With a pH similar to that of the skin, sodium stearyl glutamate can be used in skincare products as a very gentle, yet effective moisturiser or as an emulsifier, helping to keep water and oil components mixed. Typical ingredients Oil palm fruit and coconut fruit.

Sodium laureth sulfate (SLS)

Not Pregnancy Safe, Coconut Base

Used primarily as a detergent cleansing agent. It is considered gentle and effective as typically used in cosmetics products (typically facial or body cleansers and shampoos). Its primary component is coconut oil, which is naturally high in Lauric Acid, but when combined with Sulphuric Acid (from petroleum) and Sodium Carbonate you form SLS. While its origins are natural, the process it goes through turns it into a chemical compound before it is added to topical cleansing products.

Sodium lauroyl sarcosinate

Coconut Base, Pregnancy Safe.

This ingredient also serves to clean skin and hair by mixing with oil and dirt and enabling them to be rinsed away. As a modified fatty acid, it is thought to be more soluble, and have increased crystallinity and acidity compared to its original fatty acid composition. Sarcosine is made from coconut oil.

Sodium Cocoyl

Coconut Base, Vegan, Natural, Pregnancy Safe

Sodium cocoyl isethionate is a surfactant that allows water, oil and dirt to mix, allowing things to become clean. It can be found in dozens of personal care products such as shampoo, facial cleanser, bar soap, acne products, conditioner, styling products, and other products. Sodium Cocoyl Isethionate is the sodium salt of the coconut fatty acid ester of isethionic acid, used as a surfactant - cleansing agent in cosmetic products. Surfactant - cleansing agents are used for skin and hair-cleaning purposes and as emulsifiers in cosmetics.

Salt

Natural, Vegan, Pregnancy Safe

Salt helps to cleanse pores deeply, balance oil production and thwart bacteria that can instigate breakouts and acne.

Sodium PCA

Natural, Vegan, Cruelty Free, Coconut base.

Sodium PCA is a humectant that works as a hydrating agent and a skin-replenishing ingredient in a variety of skin and hair care products. Humectants are ingredients that help the skin to retain and preserve moisture. Whilst some of the sodium PCA used in skincare is synthetically created, it is, for the most part, a natural ingredient that is derived from plants, fruits, and coconut oil.

Sodium Hyaluronate

Natural, Vegan, Pregnancy Safe.

Sodium Hyaluronate is an all-natural, water-soluble form of Hyaluronic Acid, a polysaccharide that occurs naturally in the human body and works to enhance the skin's natural suppleness for a healthy appearance and texture. It enhances the skin's absorption of other nourishing ingredients, helps to restore skin moisture and also promotes a more realising and youthful complexion. Since hyaluronic acid (HA) is a naturally-derived ingredient and sodium hyaluronate (SH) is extracted from HA, it's important to know where it all starts! HA is most derived from a plant fermentation process and is rarely derived from animal.

SH-Oligopeptide-1

Is a synthetic peptide composed of three amino acids, which are glycine, histidine and lysine.

Solum Fullonum

Natural, Nut Free

Fullers earth or solum fullonum is a clay like bentonite, grey-green coloured powder. It is a mixture of hydrated aluminium silicate and aluminium magnesium silicate. It also contains other minerals such as iron, potassium, and calcium. The benefits of this clay is that is ability to absorb oil and other impurities which can make it an effective skin cleanser for people with oily skin or clogged pores. It improves skin tone and complexion; it also softens the skin. Also known as Multani Mitti in India that name comes from its use to remove dirt and oil from wool.

Soy Bean Wax

Natural, Vegan, Cruelty Free

is a natural moisturiser and is perfect for sealing in moisture in your skin. Unlike beeswax soy wax is softer and creamier and also soy wax is vegan. The benefits of this is that it's renewable resources it is a vegetable wax made from oil of soybeans. Soy wax is biodegradable and cleans up with plain old soap and water. Soy wax has a lower melting point than paraffin wax and because of this, soy candles will burn slower or longer than paraffin candles.

T

Tocopherol (Vitamin E)

Vegan, Cruelty Free, natural, Pregnancy Safe. Can contain Nuts.

Naturally-Occurring

Vitamin E (also known as tocopherol or alpha-tocopherol) is a nutrient that is important for many body processes. It helps your nerves and muscles work well, prevents blood clots, and boosts the immune system. Vitamin E is a powerful antioxidant that may be effective at reducing UV damage in skin. And vitamin E applied topically may help nourish and protect your skin from damage caused by free radicals. Vitamin E is made only by plants and it follows that it is found primarily found in plant products. Best sources include oils, margarines and spreads made from wheat germ, sunflower, safflower, rapeseed, corn, soya and peanut/groundnut – olive oil contains considerably less

Tocopheryl acetate (vitamin E)

Vegan, Pregnancy Safe, Can Contain Nuts.

Synthetic

Used in cosmetics as antioxidants, keeping oils from turning rancid, and for their reported benefits on skin (healing, anti-aging). It's also known as tocopheryl acetate, tocopherol acetate, or vitamin E acetate.

Tocoperol (Vitamin E)

Natural, Cruelty Free, Vegan, Pregnancy Safe.

Form of Vitamin E typically derived from Vegetable oil. Tocopherol is known as an antioxidant superhero that provides awesome protection for your skin when included in body care products. Benefits are that it Absorbs UV rays and helps prevent UV-induced free radical damage to skin, Acts as an anti-inflammatory agent in skin, Helps moisturize, Helps reduce pollution-related free radical damage.

Tacoheral

Possibly vegan, pregnancy safe, natural.

Tocopherol is known as an antioxidant superhero that provides awesome protection for your skin when included in body care products. (This shouldn't be terribly surprising, since tocopherols make up 96% of your skin's natural antioxidant defence system!). Tocopherol is a form of Vitamin E typically derived from vegetable oils.

Titanium Dioxide

Pregnancy Safe, Vegan, Natural

Titanium dioxide works as a UV filtering ingredient in sunscreen – it helps protect a person's skin by blocking absorption of the sun's ultraviolet light. Titanium dioxide is a mineral composed of titanium and oxygen in the form of a white powder. It can be found in cosmetic products like sunscreen. Is a light textured chalky pigment treated to provide light reflecting properties to instantly brighten the skin.

Tin Oxide

Vegan, Pregnancy Safe.

Tin Oxide provides a dazzling lustre effect thanks to its glazing properties. Found in many shimmering products. The mineral is pressed with synthetic fluorophlogopite or calcium sodium borosilicate and pigments to achieve different colours and visual effects, helping to create a wide range of glittery experiences. It is an inorganic compound derived from a mineral known as Cassiterite, which is the main ore of tin. Its name originates from the Greek word 'kassíteros', which refers to the islands of the Western Coast of Europe that were known as Cassiterides or 'Tin Islands' in Pre-Roman times and provided Europe with tin during the Bronze Age.

Theobroma Cacao Seed (cocoa) butter

Pregnancy Safe, Vegan, Natural, Cruelty Free.

Theobroma Cacao (Cocoa) Seed Butter temporarily protects injured or exposed skin from harmful or annoying stimuli and may provide relief to the skin. Theobroma Cacao (Cocoa) Seed Butter also slows the loss of water from the skin by forming a barrier on the skin's surface. Cocoa Butter is extracted from the roasted seeds of Theobroma cacao, a tree native to the Americas.

Trilethanolamine

Nut free

Is a clear, colourless, thick liquid that smells a bit like ammonia because it has a nitrogen at its centre. It is used in many cosmetic products to help balance PH levels as well as to act as a cleansing base.

V

Vitamin E

Natural, Vegan, Cruelty Free, Pregnancy Safe

Vitamin E helps maintain healthy skin and eyes and strengthen the body's natural defence against illness and infection (the immune system). Vitamin E is a fat-soluble, essential nutrient with anti-inflammatory properties. Vitamin E helps support the immune system, cell function, and skin health. It's an antioxidant, making it effective at combating the effects of free radicals produced by the metabolism of food and toxins in the environment.

Vitamin C

Natural, Vegan, Cruelty Free, Pregnancy Safe.

Vitamin C promotes collagen production, which has the potential to thicken the dermis, diminish fine lines, and is essential for firm, youthful skin. On top of that, vitamin C is an antioxidant, meaning it protects skin cells from damaging free radicals caused by UV exposure. Fruits and vegetables are the best sources of vitamin C. You can get recommended amounts of vitamin C by eating a variety of foods including the following: Citrus fruits (such as oranges and grapefruit) and their juices, as well as red and green pepper and kiwifruit, which have a lot of vitamin C.

Vetiveria Zizanoides (Vetiver) Root oil

Unsafe During Pregnancy, Vegan, Natural, Cruelty Free.

Vetiver essential oil has warming, sensuous, comforting, supporting, grounding and relaxing properties. It is used extensively in perfumery for its fixative effects as well as its fragrance. Vetiver has a sweet, woody and earthy aroma. Vetiver essential oil is hailed for its use in skin cell regeneration and boosting the growth of new cells. It

facilitates wound healing, effectively reduces scars, blemishes, and marks due to acne, burns or pox by removing dead skin cells from the body and hence bestows a radiant skin.

Vanilla Planifolia

Vegan, Natural, Safe for Pregnancy, Cruelty Free.

Vanilla – one of the world's most popular flavouring comes from the cured fruits or pods of plant *Vanilla planifolia* that belongs to the family of orchids. It is native to Mexico, but now it's grown in the tropic regions around the world. *Vanilla planifolia* is a tropical vine with beautiful yellow-greenish flowers that last only a day. If fruit is desired, the flower must be hand-pollinated otherwise the flower drops the next day. The fruits mature after about five months and then they are harvested and cured. Vanilla is also an important ingredient in perfumery and skincare products. It is used medicinally as a stimulant, antidepressant, aphrodisiac, to relieve fevers and gastric problems.

X

Xylitol

Vegan, Natural, Pregnancy Safe.

Research has shown that, like the skin-replenishing ingredient glycerin, xylitol hydrates and helps strengthen skin's barrier. Xylitol also has an influential role in normalizing skin and the natural process keratinocytes (skin cells) go through as they work their way from the lower to the upper layers to the surface. Xylitol is a five-carbon sugar alcohol. It is naturally occurring in many fruits, vegetables, mushrooms, oats, as well as nutritive fibres such as husks, corncobs, and plant stalks

Xanthan Gum

Vegan, Pregnancy Safe.

Xanthan gum is used as a thickening agent and a stabilizer to prevent products from separating in cosmetics and food. It creates a gel-like texture and is also used as a carrier agent. It allows for a smooth, even application when used cosmetically. Xanthan gum is a polysaccharide - a sugar-based polymer produced by bacteria – which is commonly used as a thickening or stabilising agent in food or beauty products.

Y

Ylang Ylang

Vegan, Natural, Pregnancy Safe after second trimester

The potent anti-bacterial properties of Ylang Ylang Essential Oil make it a very effective skin cleanser. It also acts as a healing powerhouse, boosting the regenerative process of the epidermis. Balancing: Ylang Ylang Essential Oil works wonders to help regulate your sebum production.

Z

Zinc Pca

Vegan, Pregnancy Safe.

A synthetic skin-conditioning ingredient derived from zinc. Research has shown it has anti-aging benefits due to its ability to thwart destructive enzymes in skin that can damage its surface and lead to an aged, wrinkled appearance.

Zinc Oxide

Pregnancy Safe, Vegan, Cruelty Free, Nut Free.

While Zinc Oxide creates a protective barrier and deflects UV rays off the skin and chemical SPF absorbs them before they can cause any harm. It has also shown to help reduce acne as it soothes skin and eases inflammation and is usually included in nappy creams.
